

ABOUT NEIGHBOURLY

Neighbourly helps businesses make a positive impact in communities across the UK and Ireland by donating volunteer time, money and surplus products to local good causes, all in one place. The company facilitates meaningful partnerships between companies, local charities and communities, ensuring corporate donations and resources contribute to sustainable community development.

As one of the UK's very first B Corporations, Neighbourly's mission is to put local impact at the heart of responsible business. The platform takes the uncertainty out of doing good by matching what's available to where it's needed most, across a network of thousands of place-based charities, community causes and schools.

Neighbourly has set a goal to deliver £10 billion of positive impact into UK & Ireland communities by 2030.
